

Profill™

Material Repackaging Services

PROVEN QUALITY. LEADING TECHNOLOGY.

Profill. Your source for dependable cartridge repackaging.

As a material supplier, your focus is on chemistry and material production. So when it comes to packaging cartridges, especially two-component cartridges, it's difficult to justify an in-house filling system.

Outsourcing your packaging to Profill just makes sense.

Here's why. With more than 20 years of packaging experience, Profill is a business unit of Graco Inc. Which means Profill has direct contact with the experience, know-how and capabilities of a major manufacturer of meter, mix and dispense equipment. And with access to Graco's engineering expertise, you're assured of a high-quality solution that provides consistent, dependable filling.

Services

Profill offers cartridge filling services for one- and two-component materials, with a complete line of packaging for virtually any material.

SAMPLE PACKAGING

With Profill, you can test-package a small quantity of your specific material before you commit to a final production schedule. Working together, Profill can help you select a suitable cartridge system for your material.

ONE-COMPONENT PACKAGING

Materials packaged:

- Primers
- Sealants
- Greases
- Coatings
- Lubricants

Packaging options include:

- Plastic and fiber cartridges – from 1 ml to 946 ml
- Bottles
- Cans
- Jars

TWO-COMPONENT PACKAGING

Materials packaged:

- Epoxies
- Urethanes
- Polysulfides
- Silicones
- Acrylics
- Methacrylates

Packaging options include:

- Side-by-side cartridges – from 2 ml to 1500 ml
- Coaxial cartridges
- Caulk-tube style two-component cartridges

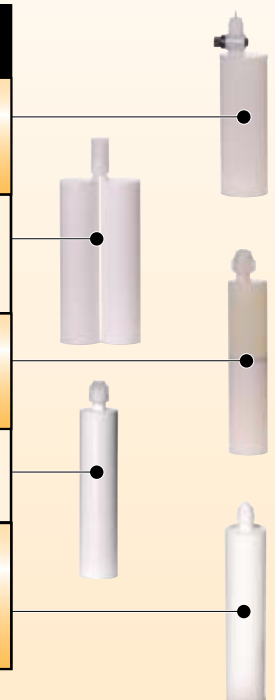

Profill is your partner for contract cartridge repackaging needs.

- Specializes in packaging for two-component materials
- Any viscosity, any ratio – capable of working with most single- and two-component materials that are suitable for cartridges
- Offers high-quality packaging for consistent, on-ratio dispensing
- Quick turnaround – typically seven days or less
- Sampling and prototype services available

Cartridges for fast-reacting, two-component materials

CARTRIDGES	DESCRIPTION	RATIOS	MATERIALS
SX Cartridge	Automatically mixes and dispenses reactive materials at specific pre-determined ratios, eliminating problems associated with hand weighing and mixing of fast reacting or difficult to handle resins.	1:1, 4:1, 10:1	Adhesives, resins
Side-by-Side	Mix ratio independent of operator skill, extends material work life, minimizes operator time and effort, reduces operator exposure to resins, and decreases air entrapment.	1:1, 2:1, 2.5:1, 4:1, 5:1, 10:1, 20:1 and 25:1	Adhesives, resins
u-TAH™	Maintains accurate ratio control and fits into your existing 1/10th gallon or 310 ml standard caulking gun as well as the pneumatic (rod-driven) and battery-powered caulking tools.	1:1, 2:1, 10:1	Adhesives, resins
Peeler™	Two-component cartridge suitable for use with manual or pneumatic caulking guns.	1:1, 2:1, 10:1	Adhesives, resins
Fischbach™	Material is kept separate until mixed and dispensed. The shaped inner cartridge folds up on use. The package has the same dimensions as a standard sealant cartridge and thus can use a standard sealant-dispensing device.	1:1	Adhesives, foams

Profill handles many other cartridges not listed on this matrix. If you have questions about a specific material or application, please call 330-966-3000w for more information.

ABOUT GRACO

PROVEN QUALITY. LEADING TECHNOLOGY.

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
