

New Contractor™ & FTx™ Guns

Exclusive New FlexSeal™ Design

Introducing breakthrough needle design technology that protects the needle from paint, preventing wear and gun spitting – making the New Contractor and FTx Guns our longest lasting, most reliable guns! You'll get the maximum performance, reliability and comfort that you've come to expect from Graco.

Exclusive FlexSeal™ Totally Enclosed Needle Design (patent-pending)

- Revolutionary needle design has no exposure to paint resulting in 70% longer life!
- Fluid pressure in the gun pushes on the FlexSeal to quickly shut-off needle.
- Needle is completely enclosed – paint no longer contacts the needle, reducing wear.

Reduced Gun Spitting

- Seat has been re-positioned closer to the tip, 60% "dead space" eliminated.
- Reduced amount of paint left between needle and tip for less spitting on next trigger pull.
- FlexSeal ensures quick shut-off.

Consistent Needle Shut-Off

- Spring is outside of the fluid path to eliminate pack out and slow needle shut-off.

Ergonomic Gun Handle

- New Contractor gun's form-fitted handle maximizes operator control and comfort.

Durable Nickel Finish

- Premium nickel finish is corrosion resistant and easier to clean.

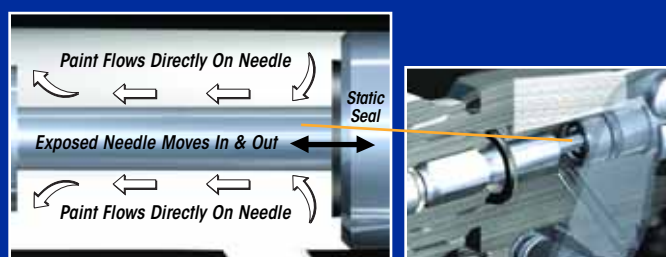

GRACO VS OTHER INDUSTRY-STANDARD NEEDLE DESIGNS

Graco's FlexSeal Totally Enclosed Needle Design

Needle is completely enclosed by the FlexSeal to provide consistent and quick shut-off, reducing spitting.

Other Industry Standard Gun Needle Designs

Paint flows directly on needle that moves in and out of a static seal – resulting in needle wear with every trigger pull.
